Entrepreneur and civic leader working at the intersection of technology, development finance, and institutional capacity building in Africa. Founder of a digital consulting agency with government and NGO clients across Africa; EU-funded programme coordinator in Algeria; Incoming Curator of the Global Shapers Algiers Hub (Affiliated to the World Economic Forum). Pursuing graduate study in development finance to bridge the technical infrastructure I build with the financial systems that sustain it.

PROFESSIONAL EXPERIENCE

Founder & CEO | LAN-C

June 2024 – Present

- Built a digital consulting agency from scratch; current client base spans private companies, government ministries, and international NGOs across Algeria and Sub-Saharan Africa.
- Leads full-cycle delivery of web platforms, digital infrastructure, and product architecture for institutional clients, including EU-funded projects and national ministry deployments.
- Manages cross-functional teams and project budgets across simultaneous engagements in multiple sectors.

Project Coordinator | PAIDEL-DZ · GRDR / EuropeAid

Oct 2025 – Present | Tiaret & Aïn Témouchent

- Lead coordinator for a European Union-funded programme strengthening civil society organisations and local development in underserved communes across western Algeria.
- Designs and facilitates participatory territorial diagnostics across multiple municipalities; directly engages local government bodies, CSOs, and EU-based institutional partners.
- Oversees capacity-building initiatives targeting social and solidarity economy actors, building the institutional foundation for locally-owned development.

Coding Instructor | GoMyCode

Aug 2025 – Present (Part-time)

- Delivers intensive 4-month full-stack web development bootcamps; responsible for curriculum delivery, student assessment, and cohort mentorship.

Key Account Manager | Brenco Engineering & Consulting

Feb 2023 – Feb 2024

- Managed end-to-end delivery of client engagements: requirements analysis, technical presentations, commercial negotiations, and contract execution.
- Led cross-functional workshops with internal teams and external stakeholders; coordinated multi-disciplinary project delivery across engineering and consulting mandates.

Co-founder & CEO | Akoma.earth (incubated by Brenco)

Feb 2023 – Feb 2024

- Co-founded and built a carbon footprint tracking tool and CO2 compensation marketplace targeting service-based businesses in Algeria.
- Designed product architecture, led go-to-market strategy, and managed the full product lifecycle from concept through MVP launch.
- Developed early understanding of carbon markets, ESG frameworks, and the gap between technical measurement and investable climate outcomes.

Web Developer Intern · Ouedkniss

Aug – Nov 2022

- Developed and deployed an electronic payment integration on Algeria's largest online marketplace platform; documented full project lifecycle from requirements to production.

Web Developer Intern · Legal Doctrine

Jul 2021 – May 2022

- Built new product features and resolved critical bugs in collaboration with senior engineers; produced technical documentation for deployed modules.

Independent Entrepreneur · Electronics Trade

2015 – 2018

- At 14, built a self-funded electronics resale operation that ran through university.

EDUCATION

Master of Science in Electronics of Embedded Systems

2021 – 2023

University of Science and Technology Houari Boumediene (USTHB)

- Focused on multi-layered system design, covering everything from bare-metal firmware to high-level application abstraction.

Bachelor of Science in Electronics

2018 – 2021

University of Science and Technology Houari Boumediene (USTHB)

- Fundamental sciences and technologies with a focus on electronic instrumentation.

LEADERSHIP & CIVIC ENGAGEMENT

Incoming Curator · Global Shapers Algiers Hub · World Economic Forum

2023 – Present

- Elected Incoming Curator of the Algiers Hub | responsible for strategic direction, community governance, and external partnerships of the WEF's youth affiliate in Algeria.
- Previously served as Vice-Curator and Head of Partnerships: identified and secured institutional sponsors, led projects including AI Nexus and ProInspire.
- Engaged with embassies, national and international organisations on collaborative youth and civic technology initiatives.

Delegate · Annual Meeting of the New Champions · World Economic Forum

2025 | Tianjin, China

- Selected to represent the Global Shapers Community at Summer Davos, WEF's flagship forum for emerging economies and next-generation leaders. Participated in working sessions on infrastructure, digital development, and Africa's economic trajectory.
